MEMO TO FILE:

Re: A.L. HATCH
Black Gnat Mine
Sec. 16, T. 9 S., R. 20 E.
Uintah County, Utah

Mr. A.L. Hatch, and Gail Porritt, of the above described mining operation came into the office today to complete 'paper work' for their operation.

Mr. Hatch explained that he had not received the letter and information sent to him on February 18th because of an address change. However, the Division has not had this material returned either.

We combined the information suggested by Ron, and the information previously listed on the Notice of Intent, and Mining and Reclamation Plan, with some details offered today at the office, to form a new Notice of Intent and Mining and Reclamation Plan (attached).

In checking with the Division of State Lands, they notified me that the gilsonite lease Mr. Hatch has, has not been assigned over to him on their records. The gilsonite Lease #32651 is in the name of G.B. REED, and ROY MOTT located at 1232 West, Parkway Avenue, Salt Lake City, Utah 84119. The other three (3) lease holders on section 16 are not listed on the MR Form 1, but they have not been notified as question 11(a) states.

Mr. Hatch signed the documents, but they were not notarized.

I had Mr. Hatch fill out, and sign the Declaration of Exemption (MR-4). He stated that the operation is definitely under 2 acres of disturbance, qualifying him this exemption. I told Mr. Hatch you will contact him relative to what you decide after reviewing all the attached documents.

DIVISION OF OIL, GAS, AND MINING
LUANN CLAYTON
MINING SECRETARY
